

2014 Burger King Student Athlete of the Year Winners Share Their Experiences as RIIL Student Athletes

Sarah Andrews – North Kingstown High School

My experiences with the soccer and swim teams have been amazing. I love seeing these groups every day during season because everyone becomes so close and supportive of each other. I have met many of my friends through these teams as well and enjoy spending time with them, on and off the field (or pool)!

Next year, I will miss my teammates and friends that graduate, but I am excited to begin my senior year with new opportunities and friends. I anticipate a year of hard work, fun, and success athletically and academically.

Andrew Miner – East Greenwich High School

As an Avenger football and baseball player, I was honored to be nominated as an all-division player in both sports this year, but my greatest memories revolve around my teammates. The relationships we have built and the way we have supported each other have meant the most to me. Currently in the middle of baseball playoffs, my team has demonstrated more courage, commitment to one another, dedication to our collective goal, and resilience than any team I've ever been a part of. It's been an honor to be an Avenger.

I will miss the community of East Greenwich High School the most. It is a very accepting, supportive environment which fosters respect for all. This aspect of my high school has allowed me to have the confidence to venture into new things like drama club, student government, and the school newspaper, and not feel defined only by my participation in sports.
